**Logline**

Former Youngblood member Combat recruits Youngblood for an interstellar mission to save the planet Katella (and the whole galaxy) from a cosmic threat known as The Goat.

**Synopsis**

[Combat](#), an alien from the planet Katella, returns to Earth to enlist the help of his old comrades of [Youngblood](#). His world is threatened by an interstellar menace called the [Goat](#), which will consume his entire planet, and eventually the universe. Youngblood agrees to help, but the only one up to the challenge is [Suprema](#) (whom the Katellans, we learn, worship as a goddess--although Combat doesn't really believe she's *really* Suprema). She finally destroys the Goat by causing a nearby star to supernova and collapse into a black hole, which sucks the Goat in. Suprema survives this cataclysm, but she's worked over pretty badly, and spends days recovering. Unexpectedly, Leonard Doyle ([Big Brother](#)) stays by her bedside, marking an unexpected thaw in their relationship.
